

RECOVER

PP Woven groundcovers

New benchmark for nursery groundcovers

Outstanding specifications

1. 35% CO₂ reduction
2. Guarantee of 900 kLy UV protection
3. Lifetime of more than 10 years
4. High resistance to mechanical stress
5. Optimal environmentally friendly weed control
6. Shrink-resistant, thermally stable

RECOVER

PP Woven groundcovers

Functions

- Stimulates the growth of the plants
- Prevents the growth of weeds
- Not harmful to the environment and prevents the use of herbicides
- A high quality product thanks its high light opacity & extreme UV-stabilization

Advice on proper usage:

Avoid use of chemicals and cleaning agents with extreme acidity.
Proper maintenance will prolong the lifetime.

Product Specifications

Properties	Value	Test method
Material	Polypropylene	
Recycled content	30% post-industrial waste	
Recyclability	100%	
Tissue colour	Black/White	
Pattern	Square 25/25 cm	
Colour lining	Black/White	
Tissue weight	115 g/m ²	ISO 3801
Roll length	100 m	
Roll width	330 - 415 - 515 cm	

Environmental Impact Categories

Global warming potential (Cradle-to-Gate)	0,16 kg CO ₂ eq./m ²	EN 15804 + A2
---	--	---------------

Technical Characteristics

UV-stabilization	≅ 900 Kly	ISO 4892-3 cycle 3
Waterpermeability	0,010 m/s	ISO 11058
